mutual consent, as they can all other

aug. 17 13r There is in the Royal Library of Paris a written contract made in 1297, b tween two persons of mble birth la Armagnal. The linst and and wife were bound to each other for seven vears. It was also agreed that the Aug 17-11 parties should have the right to renew the tie at the cul of that time if they nu'nully agreed; but if not, the children were to be equally divided, and if the number should chance not to be even, they were to draw lots for the

KEN (UCKY, The Rouan church alone regarded na riage as a sacrament, but all the other churches reorgaized it as a Divine i stitution, and, accordingly, every denomination has provided religious services for its solemnization. So strong a hold dil the church in En Others his professional services to the gland gain upon it that for a long time the regulation of marriage and divorce

was almost exclusively under the church's juris liction. Among the Romans there were three ways of obtaining a wife, by capture, sale or gift. Wien a Roman bought a wife, and this was the usual way, the ceremony that fo'lowed was meregone through for the sake of having ndisputable evidence of the sale. The head of the family had to give her over to the husband in the presence of wit res-es, and it is from this that we now have the custom of givlng away the brine. Before the period of Rome's greatness, the parties could dissolve the marriage by mutual con-

When they wished to terminate the contract, they usually went before an altar and in the presence of witnesses is for honest protection. My signa- declared the marriage at an end. At and after the time of Rome's greatness the marriage was indissoluble. The R man husband took his wife not as her husband, but as her father. She came into his family the same almost

as ar adopted daughter. Originally the husband had absolute and complete control over her and her was subjected to any guardianship that he might have had appointed for came in her condition, and came as changes usually come, from one extreme to another. The wife was now subject to the tutelage of guardians appointed by her own family. This tutelage gave her a very independent position as to her separate estate and

Before this change came, and even afterward, there was exercised among the Ramaus complete tyranny by the Attorney at Law, head of the family over his relations which were members of his family.

As head of the family, the eldest OFFICE on First street, same as male was always the head; he had excupied by County Judge power not only over his relatives, but all persons connec'ed with his household and his children's households. While the father lived his son was subject to him, although the son might be orty years old and have a large family of his own. The grandchildren were subject to the grandfather the same as their own father

as we now regard the individual. If a list of drugs. But here it may be remember committed a crime the whole marked, as an analogy between old family was held responsible, and it was back the discovery was stated by a perfectly lawful for the injured family Office on Second Street. and recognized her as head of the

Some of the customs atlending a bridegroom dressed himself in the most gorgeous style he could command. He next perfumed himself with frankincense and north. Then he went forth covered with garlands, or, if he were rich, he would wear a circlet of gold and ride a gaily-caprisoned horse. by his gro msmen, musicians, singers

The marriage was always celebrate l at night, and the bridesmaids were rovided with lamps to meet the bridegroom when he came. On his arrival he found the bride, bridesmaids and company awaiting him. As soon as the actual ceremony was over the entire company returned to the bridegroom's house with great rejoicing. When they reached the house they partook of the wedding feas'. The festivities usually lasted during fourteen days. The groom not only furnished the feast, but the robes of those who

and toreli-bearers.

took part in the ceremony. Pioneer marriages in this country. no' a century ago, had some resemblauce to a Hebrew wedding. In those great excitement, and the whole neighborhood was usual'y invited.

As the houses of the bride and groom were generally far apart, the groom would allow. He was attended by his groomsmen. The marriage generally took place before noon, to enable the were within a few miles of the house a

bot le race was arranged. Two persons were chosen for this road was selected, and the riders started for the louse. Pell-nell they went over all kinds of obstacles, and when the fortunate one reached the house he was handed the much-prized black betty, as the whisky bottle was then called. H: then returned to the party, and af er giving each of the groomsmen, and even the bridesmaids, a make good wages and one must drink, he put the Lottle in his jacket for hi ure reference.

When the house was reached a feast was realy for the party, who were usually lungry after the long ride. low rates raling in Europe. The colo- our own. "Make the peasant King The festivities were kept up all night, till broad daylight, when the feast

The ring, which is now so commonly used at marriage ceremonies, was riginally, in England, made of iron adorned with adamant. Bung hard it was supposed to signify the endurance and perpetuity of the contract. The eminent Swainburn speaks about this ring: "Howbeit," he said, "it skilleth not at this day of what it being round and without end doth import that their love shall circulate and flow continually. The finger on which the ring is to be worn is the little finger, because there was supthence into the heart."-Pittsburgh

ANCIENT REMEDIES.

Nauseating Compounds Used in England Not Many Centuries Ago. Various portions of the anatomy of various animals powdered did former generations have to swallow. Even brick oil was utilized as a specific, bricks being pulverized when red het and scaked in oil, while vipers dried in powder and soaked in warm sherry were much in favor. Tar water long etalned the popularity which Bishop Berkeley's advocacy had obtained for Red coral was used for children, not in its modern form of a rattle for rubbing their gums with, but as an inward powdered preparation.

Horrible utterly was the idea of the human brain made into a bolus and given, as in Charles H.'s case, but the notion of the dead hand of an executed eriminal being a remedy for wens exsted as recent as 1532, when a man was hanged for the murder, under diabolically cold-blooded circumstances. of his wife, at Brighton, and after the drop fell a woman was helped up on

the scaffold for this purpo e. Kenterass and saffron were especialconsidered to have great beneficial ffee's, which explains the allusion "The Caxtons" so frequently made to a moral saffron bag. Acaeia, parsley and the wibl flag that grows by the river-side were great favorites. Fennel, red roses, pine tops ground, hartworth and Cretan carrots were frequently prescribed.

Ins ets play a leading part in the old Paris physician of cockroaches as producing a tineture for kidney disease. So, after all, the modern times can carried to such an extent that whole shew some notions akin to the past

VALUE OF PARROTS.

That chattering genius of the bird ly for Brazilian pets that can talk. (pointing to a fine specimen on a

partly on its merits and partly be the recently-deceased pet of an old lady on Spring Garden street, who had been her daughter. But it was a flute, and know half a dozen such unes as 'Comin' Thro' the Rye,' 'Yankee Doodle,' Over the Fence Is Oat,' and 'The Old Man's Drunk Again.' The latter tune it learned frem its last mistress, along with sundry profane expressions, which cut down its value at least \$50. A parrot that would spit out half a dozen tunes without a cass word, say Upholstering Shop second door from Good night' and 'Good morning' at the Post-office, next to Hunley's Livery the proper times, and would not tight with the house cat, would, in the present condition of the market, fetch rides. LAYING CARPETS A SPECIAL

"Is the parrot market cornered?" 'Oh, no. That was tried once, and a New York firm bought up all the talking parrots in the country quietly, at fair prices, and waited for a big raise. Just as the corner was about to succeed two vessels sailed into dred birds on board, and the pool was broken, the syndicate loosing

the entire voyage instructing the birds

"What are prevailing prices now?" "Well, Cuban parrots sell for \$5 to \$15, and Brazilian parrots from \$20 to \$125. These are double the price which have been prevailing. The re sult is due to a limited supply and a brisk demand. Parrots are great pets, and an old lady the other day bough an old parrot from us for \$10 which we had about made up our minds t give away, just because the bird looked like one which she had owned for vears and which had just died."-

NATURAL SCULPTURE. The Exceptional Geological Interest of Monnt Roralma. Though the Yellowstone Park is, so far as we know, the most remarkable geological and seenic region on the earth, there are other spots of exceptional geological Interest, notably Mount Roraima, in British Guiana, or rather at the junction of British Gulana and Brazil with Venezuela. The summit of this mountain is a euriosity in serial denudation. As deseribed by Mr. Im Thurn, who was the first to ascend to the top, it presents a fine example of natural scalpture 'The step was taken," he says, "and we saw surely as strange a sight, re garded simply as a product of nature. as may be seen in this world; nay, i would probably not be rash to assert that very few sights even a strange can be seen. The first impression was one of inability n their mid-career the broken and single instant into stone. For all around were rocks and pinnacles of rocks of seemingly impossibly fantastic forms, standing in apparently imossibly fantastic ways, nay, placed one on or next to the other in positions seeming to defy every law of gravity-rocks in groups, rock+ stan loint with countless apparent caricaures of the faces and forms of men and animals, apparent caricatures of umbrellas, tortoises, churches, other most lucongruous and unexpected objects. And between the rocks were level spaces, never of great extent, of pure yellow sand, with stramlets and little waterfalls, and pools and shallow lakelets Druggist -- Yes, sir, if you will take of pure water; and in some places a bottle according to directions and a there were little marshes lifted with cure is not effected, bring back the low, seanty and bristling vegetation. medicine and I will retund the money. And here and there, alike on level space and jutting from some erevice iu the rock, were small shrubs, in form like minature trees, but all apof Chicago, offered his sweetheart parently of one species. On the

bottom of the vase is its most remarkable piece of cutting, a bust of Atys. The English chapter in the history of the vase began in 1770, when Mr Byser, the antiquarian, succeeded in purchasing it. He in turn sold it to Sir William Hamilton, who, unfortunate in china as in matrimony, gave it to the Doke of Poetland for 1,800 cold weather prevent a fall of tem- guineas, or about \$9 000. In the course of time a sale of the Portland properof heat from the earth's surface. As ty, including the precions ornament, was held. The Duchess of Portland, a proud and imp rious woman, was present for the purpose of buying in the vase. To her korror and disgust she found a competitor for its purchase in the little, lame, pock-marked china manufacturer, Josiah Wedgwood. To the Duckess this was intolerable, and

she began the bidding in a spirited teanner, determined to speedily put down the son of a common Stufford-Wedgwood, however, was as determined as the Duckess to become the owner of the vase, and had a higher motive than family pride at the bottom of kis desire. The bid rapidly ran up, and a chill of fear seized the

Duchess as they mounted, for her purse hall its limits, and at last, in anger and despair, she made her final offer, was outhid, and rushed from the room.
